

COMPANY PROFILE

Critical supply. Made simpler.

A Botswana-owned procurement, product development and distribution partner for energy, water, telecoms and mining.

LOCAL INTELLIGENCE | REGIONAL REACH | ACCOUNTABLE DELIVERY

BUILT FOR CRITICAL INDUSTRIES

One disciplined supply partner across four essential sectors.

Powerdrive connects operational requirements to qualified manufacturers, manages technical compliance and logistics, and builds structured routes to market for selected products.

01 ENERGY

- Transformers, mini-substations & switchgear
- Cables, enclosures & distribution equipment
- Motors, drives, metering & controls
- Overhead-line & renewable components

02 WATER

- Pipes, valves, couplings & fittings
- Pumps, borehole equipment & spares
- Meters, instrumentation & pressure control
- Water and wastewater plant equipment

03 TELECOMS

- Towers, masts & mounting hardware
- Fibre cable, ducting & joint closures
- Rectifiers, batteries & backup power
- Cabinets, earthing & lightning protection

04 MINING

- Slurry and dewatering pumps
- Conveyors and screening components
- Motors, gearboxes & process fittings
- Wear parts, spares & maintenance supplies

OUR PROMISE

Reliable sourcing. Compliant products. Accountable delivery.

WHO WE SERVE

- Electricity & water utilities
- Telecommunications utilities
- Mining & quarry operations
- EPC & civil contractors
- Industrial facilities
- Government institutions

PRODUCT DEVELOPMENT & DELIVERY

PowerBOX

Developed for Botswana. Built with ALLBRO. Taken to market by Powerdrive.

Powerdrive collaborated with ALLBRO in South Africa to develop the PowerBOX enclosure and now manages its Botswana route to market through approved resellers.

HOW WE DELIVER

01 REVIEW

Specifications, standards and priorities

02 SOURCE
